# PCAP Tribe meet-up: 18 July

**Boundary-less HR - how to harness the potential of all of your people to achieve extraordinary business results.**

In this session, best-selling business author Mandy Johnson interviews Hayley Cooper, CEO of Harnex, Australia's largest manufacturer of harnesses, cables and looms with clients such as Volvo, Caterpillar, Siemens, Airport Link & many more. Hayley will share how Harnex increased its profits by 81% and revenue by 40% in a single year, using innovative HR techniques. She will also give us a sneak preview into the radical strategies she is implementing in 2024, to continue this ground-breaking streak.

Participants will then discuss Hayley's approach, assess where in their own business their people are disengaged, and group-brainstorm innovative solutions to involve them more to increase their own profitability. Includes take home tools and templates to fast-track implementation.
